FIROZ MOHAMMAD

To Have Two Mouse Cursor On Monitor

List out all input devices :

```
firoz@320-15ikb: ~/Desktop/faltu/firoz/sem_8/Device_Driver/Practice/Lab2/Two_mouse_...
File Edit View Search Terminal Help
(base) firoz@320-15ikb:~/Desktop/faltu/firoz/sem_8/Device_Driver/Practice/Lab2/Two_mouse_cursor$ xinput
Virtual core pointer          id=2    [master pointer (3)]
↳ Virtual core XTEST pointer  id=4    [slave pointer (2)]
↳ Elan Touchpad               id=10   [slave pointer (2)]
Virtual core keyboard         id=3    [master keyboard (2)]
↳ Virtual core XTEST keyboard id=5    [slave keyboard (3)]
↳ Video Bus                   id=6    [slave keyboard (3)]
↳ Video Bus                   id=7    [slave keyboard (3)]
↳ Power Button                id=8    [slave keyboard (3)]
↳ EasyCamera: EasyCamera      id=9    [slave keyboard (3)]
↳ Ideapad extra buttons       id=11   [slave keyboard (3)]
↳ AT Translated Set 2 keyboard id=12   [slave keyboard (3)]
(base) firoz@320-15ikb:~/Desktop/faltu/firoz/sem_8/Device_Driver/Practice/Lab2/Two_mouse_cursor$
```

After plugging external mouse :

```
(base) firoz@320-15ikb:~/Desktop/faltu/firoz/sem_8/Device_Driver/Practice/Lab2/Two_mouse_cursor$ xinput
Virtual core pointer          id=2    [master pointer (3)]
↳ Virtual core XTEST pointer  id=4    [slave pointer (2)]
↳ Elan Touchpad               id=10   [slave pointer (2)]
↳ YSPRINGTECH USB OPTICAL MOUSE id=13   [slave pointer (2)]
Virtual core keyboard         id=3    [master keyboard (2)]
↳ Virtual core XTEST keyboard id=5    [slave keyboard (3)]
↳ Video Bus                   id=6    [slave keyboard (3)]
↳ Video Bus                   id=7    [slave keyboard (3)]
↳ Power Button                id=8    [slave keyboard (3)]
↳ EasyCamera: EasyCamera      id=9    [slave keyboard (3)]
↳ Ideapad extra buttons       id=11   [slave keyboard (3)]
↳ AT Translated Set 2 keyboard id=12   [slave keyboard (3)]
(base) firoz@320-15ikb:~/Desktop/faltu/firoz/sem_8/Device_Driver/Practice/Lab2/Two_mouse_cursor$
```

We could see the YSPRINGTECH USB OPTICAL MOUSE with id = 13 has been added as a slave pointer under master pointer device with id=2

Create a new master device :

```
(base) firoz@320-151kb:~/Desktop/faltu/firoz/sem_8/Device_Driver/Practice/Lab2/Two_mouse_cursor$ xinput create-master Firoz_Pointer
(base) firoz@320-151kb:~/Desktop/faltu/firoz/sem_8/Device_Driver/Practice/Lab2/Two_mouse_cursor$ xinput
Virtual core pointer                               id=2      [master pointer (3)]
├─ Virtual core XTEST pointer                     id=4      [slave pointer (2)]
├─ Elan Touchpad                                  id=10     [slave pointer (2)]
├─ YSPRINGTECH USB OPTICAL MOUSE                  id=13     [slave pointer (2)]
Virtual core keyboard                             id=3      [master keyboard (2)]
├─ Virtual core XTEST keyboard                    id=5      [slave keyboard (3)]
├─ Video Bus                                       id=6      [slave keyboard (3)]
├─ Video Bus                                       id=7      [slave keyboard (3)]
├─ Power Button                                   id=8      [slave keyboard (3)]
├─ EasyCamera: EasyCamera                         id=9      [slave keyboard (3)]
├─ Ideapad extra buttons                          id=11     [slave keyboard (3)]
├─ AT Translated Set 2 keyboard                   id=12     [slave keyboard (3)]
Firoz_Pointer pointer                             id=14     [master pointer (15)]
├─ Firoz_Pointer XTEST pointer                    id=16     [slave pointer (14)]
Firoz_Pointer keyboard                           id=15     [master keyboard (14)]
├─ Firoz_Pointer XTEST keyboard                   id=17     [slave keyboard (15)]
(base) firoz@320-151kb:~/Desktop/faltu/firoz/sem_8/Device_Driver/Practice/Lab2/Two_mouse_cursor$
```

You can see that a new master pointer and keyboard has been created with pointer id = 14 and keyboard id = 15.

One should notice that there are no slave devices(physical hardware) under the newly created master pointer and keyboard.

So, we need to move one of my mouse to the new master pointer device.

Reattach one of mouse to the newly created master device pointer :

```
(base) firoz@320-151kb:~/Desktop/faltu/firoz/sem_8/Device_Driver/Practice/Lab2/Two_mouse_cursor$ xinput reattach 13 14
(base) firoz@320-151kb:~/Desktop/faltu/firoz/sem_8/Device_Driver/Practice/Lab2/Two_mouse_cursor$ xinput
Virtual core pointer                id=2    [master pointer (3)]
↳ Virtual core XTEST pointer        id=4    [slave pointer (2)]
↳ Elan Touchpad                     id=10   [slave pointer (2)]
Virtual core keyboard              id=3    [master keyboard (2)]
↳ Virtual core XTEST keyboard        id=5    [slave keyboard (3)]
↳ Video Bus                         id=6    [slave keyboard (3)]
↳ Video Bus                         id=7    [slave keyboard (3)]
↳ Power Button                      id=8    [slave keyboard (3)]
↳ EasyCamera: EasyCamera            id=9    [slave keyboard (3)]
↳ Ideapad extra buttons              id=11   [slave keyboard (3)]
↳ AT Translated Set 2 keyboard       id=12   [slave keyboard (3)]
Firoz_Pointer pointer              id=14   [master pointer (15)]
↳ YSPRINGTECH USB OPTICAL MOUSE      id=13   [slave pointer (14)]
↳ Firoz_Pointer XTEST pointer        id=16   [slave pointer (14)]
Firoz_Pointer keyboard             id=15   [master keyboard (14)]
↳ Firoz_Pointer XTEST keyboard       id=17   [slave keyboard (15)]
(base) firoz@320-151kb:~/Desktop/faltu/firoz/sem_8/Device_Driver/Practice/Lab2/Two_mouse_cursor$
```

Here , I have attached my external USB Optical Mouse with id=13 to Firoz_Pointer master pointer with id=14.

```
firoz@320-151kb: ~/Desktop/faltu/firoz/sem_8/Device_Driver/Practice/Lab2/Two_mouse_...
File Edit View Search Terminal Help
[ Firoz_Pointer keyboard                id=15   [master keyboard (14)]
  ↳ Firoz_Pointer XTEST keyboard         id=17   [slave keyboard (15)]
(base) firoz@320-151kb:~/Desktop/faltu/firoz/sem_8/Device_Driver/Practice/Lab2/Two_mouse_cursor$ xinput reattach 13 14
(base) firoz@320-151kb:~/Desktop/faltu/firoz/sem_8/Device_Driver/Practice/Lab2/Two_mouse_cursor$ xinput
Virtual core pointer                id=2    [master pointer (3)]
↳ Virtual core XTEST pointer        id=4    [slave pointer (2)]
↳ Elan Touchpad                     id=10   [slave pointer (2)]
Virtual core keyboard              id=3    [master keyboard (2)]
↳ Virtual core XTEST keyboard        id=5    [slave keyboard (3)]

↳ Video Bus                         id=7    [slave keyboard (3)]
↳ Power Button                      id=8    [slave keyboard (3)]
↳ EasyCamera: EasyCamera            id=9    [slave keyboard (3)]
↳ Ideapad extra buttons              id=11   [slave keyboard (3)]
↳ AT Translated Set 2 keyboard       id=12   [slave keyboard (3)]
Firoz_Pointer pointer              id=14   [master pointer (15)]
↳ Firoz_Pointer XTEST pointer        id=16   [slave pointer (14)]
↳ YSPRINGTECH USB OPTICAL MOUSE      id=13   [slave pointer (14)]
Firoz_Pointer keyboard             id=15   [master keyboard (14)]
↳ Firoz_Pointer XTEST keyboard       id=17   [slave keyboard (15)]
(base) firoz@320-151kb:~/Desktop/faltu/firoz/sem_8/Device_Driver/Practice/Lab2/Two_mouse_cursor$
```

lsmod again to confirm it was unloaded.
